PERSONAL STATEMENT

As a highly motivated and skilled individual, I am seeking a product manager role where I can apply my expertise in problem-solving, strategic thinking, and stakeholder management to deliver successful end-to-end solutions. My proactive leadership style, strong organizational skills, and proven track record of delivering results make me an ideal candidate for this type of role. I am confident that my skills and experience will enable me to excel as a PM and drive success for my team and organization.

EXPERIENCE

Release Manager, *Microsoft*, Redmond, WA June 2021 – February 2023

- Manage release windows and cycles for Microsoft Cloud for Sustainability (MC4S).
- Maintain release schedules for all MC4S services and ensure alignment across all teams.
- Communicate release plans and changes to internal stakeholders.
- Measure and monitor release progress to manage risk and resolve issues that affect scope, schedule, and quality.
- Develop automation and release tools for the construction, continuous integration, and deployment of software.

Software Engineer, *Microsoft*, Redmond, WA September 2017 – June 2021

- Automated our deployment pipeline which resulted in a 92% increase in time efficiency.
- Implemented a new branching strategy for code delivery resulting in quicker task completion in Azure DevOps.
- Led bi-weekly standup and triage meetings to ensure timely decision-making and effective communication between project stakeholders at all levels.

Technical Lead - TDP, *Liberty Mutual Insurance*, Seattle, WA July 2015 – September 2017

- Served as the interim Agile Scrum Master for an engineering team of five.
- Developed Java-based web services using IBM WebSphere Process Server.
- Technical lead for an integrated sales-based platform estimated to provide an annual \$90 million in savings.
- Facilitated interactions between business and technical resources on development of a mobile analytics application.

Product Software Developer, *Informion*, Seattle, WA September 2014 – June 2015

- Participated in an incubator program which exposed me to many roles and responsibilities.
- Collaborated with marketing to develop strategies for further business growth.
- Defined requirements and design documentation for the implementation of RESTful web services.

Business Technology Services Analyst Intern, *PEMCO Insurance*, Seattle, WA June – September, 2014

- Revised and updated the Intern webpage.
- Built a SQL database warehouse to populate and manage customer data.
- Represented the PEMCO organization at community events and sponsorship activities.
- Collaborated with other interns on a summer-long intern project that was presented to the Board of Directors.

ACTIVITIES

Founding Board Member, *Information School*, Seattle, WA November, 2019 – Present

As a member of the University of Washington Information School's Alumni Advisory Board, I advise the iSchool on the development and maintenance of the alumni engagement program. In this role, I have been instrumental in fostering strong relationships with and among our alumni, current students, faculty, and the iSchool.
