SUMMARY

Highly motivated software engineer looking to make the transition into a PM/TPM role where I plan to apply my experienced problem-solving, analytic and strategic thinking, and goal oriented mentality to deliver end to end solutions. I hope to become a high energy manager with proactive leadership, strong organization skills, and the proven capability of delivering results with an exceptional ability for stakeholder management.

EXPERIENCE

Software Engineer, *Microsoft*, Redmond, WA   *September 2017 – Present*
- Created a KPI dashboard using Azure Data Explorer to track the customer engagement.
- Semi-automated our deployment pipeline which resulted in a 92% increase in time efficiency.
- Implemented a new branching strategy for code delivery resulting in quicker task completion in Azure DevOps.
- Led bi-weekly standup and triage meetings to ensure timely decision-making and effective communication between project stakeholders at all levels.

Technical Lead - TDP, *Liberty Mutual Insurance*, Seattle, WA   *July 2015 – September 2017*
- Served as the interim Agile Scrum Master for an engineering team of five.
- Developed Java-based web services using IBM WebSphere Process Server.
- Technical lead for an integrated sales-based platform estimated to provide an annual $90 million in savings.
- Facilitated interactions between business and technical resources on development of a mobile analytics application.

Product Software Developer, *Informion*, Seattle, WA   *September 2014 – June 2015*
- Participated in an incubator program which exposed me to many roles and responsibilities.
- Collaborated with marketing to develop strategies for further business growth.
- Defined requirements and design documentation for the implementation of RESTful web services.

Business Technology Services Analyst Intern, *PEMCO Insurance, Seattle, WA*   *June – September, 2014*
- Revised and updated the Intern webpage.
- Built a SQL database warehouse to populate and manage customer data.
- Represented the PEMCO organization at community events and sponsorship activities.
- Collaborated with other interns on a summer-long intern project that was presented to the Board of Directors.

ACTIVITIES

Founding Board Member, *Information School, Seattle, WA*   *November, 2019 – Present*
Serving on the University of Washington Information School's Alumni Advisory Board to advise the iSchool in building and maintaining an alumni engagement program that supports and provides value to our alumni, while creating and sustaining strong relationships with and among our alumni, current students, faculty and the iSchool.

Board Member, *Office of Minority Affairs & Diversity, Seattle, WA*   *January, 2019 – December, 2021*
Served on the University of Washington Friends of the Educational Opportunity Program (FEOP), in efforts to build community awareness of educational advancement opportunities for underrepresented, educationally, and economically disadvantaged students.
